— GREETINGS —

Greetings Class of 1949:

The Alumni of Tyrrell County Training School wish to extend to you sincere greetings and congratulations. You, too, will join the ranks of more than one hundred and sixty members of the Alumni who are now competing with others in this struggle for recognition and existence.

You hail from one of the unusually youthful schools of the country, for only eighteen years ago there ran, on the same grounds on which you now stand, a canal billowing with marine organisms. A gloomy looking place then, but in a memorable spot that would someday be filled, and on which children would play, study, sing and dance with the mirthful happiness of youth.

In April, 1933, as the sun dipped beyond the western horizon, and the cool dew of night began to dampen the earth, the first class marched from the cherished hallway of the then Columbia Colored High School, to a small auditorium, where played that grand old melody, "God of Our Fathers". There they received the cherished trophy which four years of work had won.

It was an unusual experience not only for the class but the entire county, for this day introduced to society, Tyrrell County's contribution to the then "Tomorrow's World". There were sixteen members of that graduating class who, like letters in a mail box, scattered themselves over different areas of the globe to make their contribution to society.

The school faced a drastic test. Could it survive?

The first man to receive a diploma, and also the first student in the school's history was James H. Steely, a very enthusiastic youth. He was followed by fifteen others. The audience applauded as if christening a ship and the Tyrrell Boat set sail.

Helen Spruill, now Mrs. George R. Rowsom, a member of the class of 1933 was off to a good start and moved swiftly to North Carolina College for Negroes in Durham, North Carolina. Tyrrell County Training School had passed the test of survival for this honor student received the coveted distinction of being the first Negro in Tyrrell County to receive a Bachelor of Science Degree. An instructor in mathematics at Tyrrell County Training School, Mrs. Rowsom stands out as a beacon to those who follow after.

Following is a brief summary of accomplishments of the Alumni:

Two have attained the coveted honor of principalship. They are Mrs. Pinkie Sykes Swain and Johnson E. Spruill.

THEY ARE PROMINENT BUSINESSMEN - No field offers more advancement for our people than business. We are happy to note the results of four of our members. They are George Rowsom, Grocer and Mortician, Thomas F. and George H. Griswell, owners and operators of Griswell Cafe, and Theodore Skinner, owner and operator of Skinner's Cafe.

THEY HAVE EXCELLED IN AGRICULTURE - Hilbert Sessoms of the class of 1936 is the first to receive a Bachelor of Science Degree in Vocational Agriculture. He is now a teacher of Vocational Agriculture in this state.

THEY ARE COSMETOLOGISTS - Miss Beulah Fenner and Mrs. Mildred Liverman Clegg completed courses at All-Quinn Beauty College and DeShazor Beauty College respectively, and are now licensed operators.

THEY ARE SERVING IN THE ARMED FORCES - Joseph Rowsom, Class of 1934, entered the U. S. Coast Guard in 1935 and has remained in this branch of service ever since. He is a Chief Steward, and has traveled extensively.

Elijah T. Spruill, Class of 1938, embarked upon a U. S. Navy career in 1939, and is now holding a rating as First Class Steward.

Aulander Marner, Class of 1943 is a Staff Sergeant in the Regular Army.

THEY ARE SERVING AS SPECIAL TEACHERS - Returning veterans opened numerous jobs on the home front, and Carlie Owens, Class of 1943, was the first to receive such a position. He is assistant instructor in Veteran Farmer Training at Tyrrell County Training School. Charlie Midgett, Class of 1939, serves as assistant instructor in the shop area.

THEY ARE SPECIALISTS - Winfred Griswell, Class of 1938, is now a dental technician.

THEY ARE SKILLED LABORERS - During the war many of the jobs designated as "skilled" were sufficient to prevent immediate draft. Thomas F. Owens holds one of these skilled jobs. He is a skilled sawman and at one time was head sawman for Tyrrell Lumber Company.

THEY ARE SECRETARIES - Thelma Owens, Class of 1946, is the first student to pursue and complete a course in Secretarial Science. She studied and is now a secretary in Baltimore, Maryland.

THEY ARE FARMERS - "Men of the soil" as they are commonly called, brings us our largest group of specified alumni. Outstanding among these are Wallace Hill, Class of 1936, and Alaric Hill of the same class.

THEY ARE TEACHERS - Helen S. Rowson, '33, Johnson E. Spruill, '33, Lillian Dunbar Hedgebeth, '36, Viola Simpson Coston, '34, Blanche Simpson Bryant, '35, Joseph Baum, '35, Pinkie Sykes Swain, '38, Vonbeulah Spruill, '38, Georgia Patrick Sweet, '38, Julia Griswell, '39, Eva M. Spruill, '40, Addie Griswell Midgett, '43.

Class History

The day was foggy and drizzly, the 28th of August, 1944, when fifty seven pupils registered at Tyrrell County Training School as members of the eighth grade. Coming from different districts, and not being acquainted, the first days were spent orientating and becoming familiar with the teachers and courses we were to take. Everyone was quite happy, but not all followed through.

When we were promoted to the freshman class our membership had dropped to twenty six. There were twenty six members of our sophomore class, also. This year seemed to have inspired us to work more diligently in the coming years. The membership continuing to drop, twenty four enrolled in the junior class. At last the senior year, the year that everyone has anticipated. Here we find seventeen pupils looking forward to graduation.

We have already seen that graduating from high school is not enough. Therefore, we have planned to continue our education in various colleges and trade schools. We have much to accomplish for the way of life is complicated, and the road to success is difficult.

Who's the quietest? _____ Georgiana Bowser
Who's the youngest? _____ Gertrude Hill
Who's the oldest? _____ Marie Collins
Who's the smartest? _____ Walter Brown
Who's the most popular? _____ Roscoe Selby
Who's the sheik? _____ Louis Gibbs

One morning in early September of 1945, fifty six strange, but enthusiastic faces appeared for their first year at Tyrrell County Training School. We had finished our task of orientation and become affiliated with greater responsibilities.

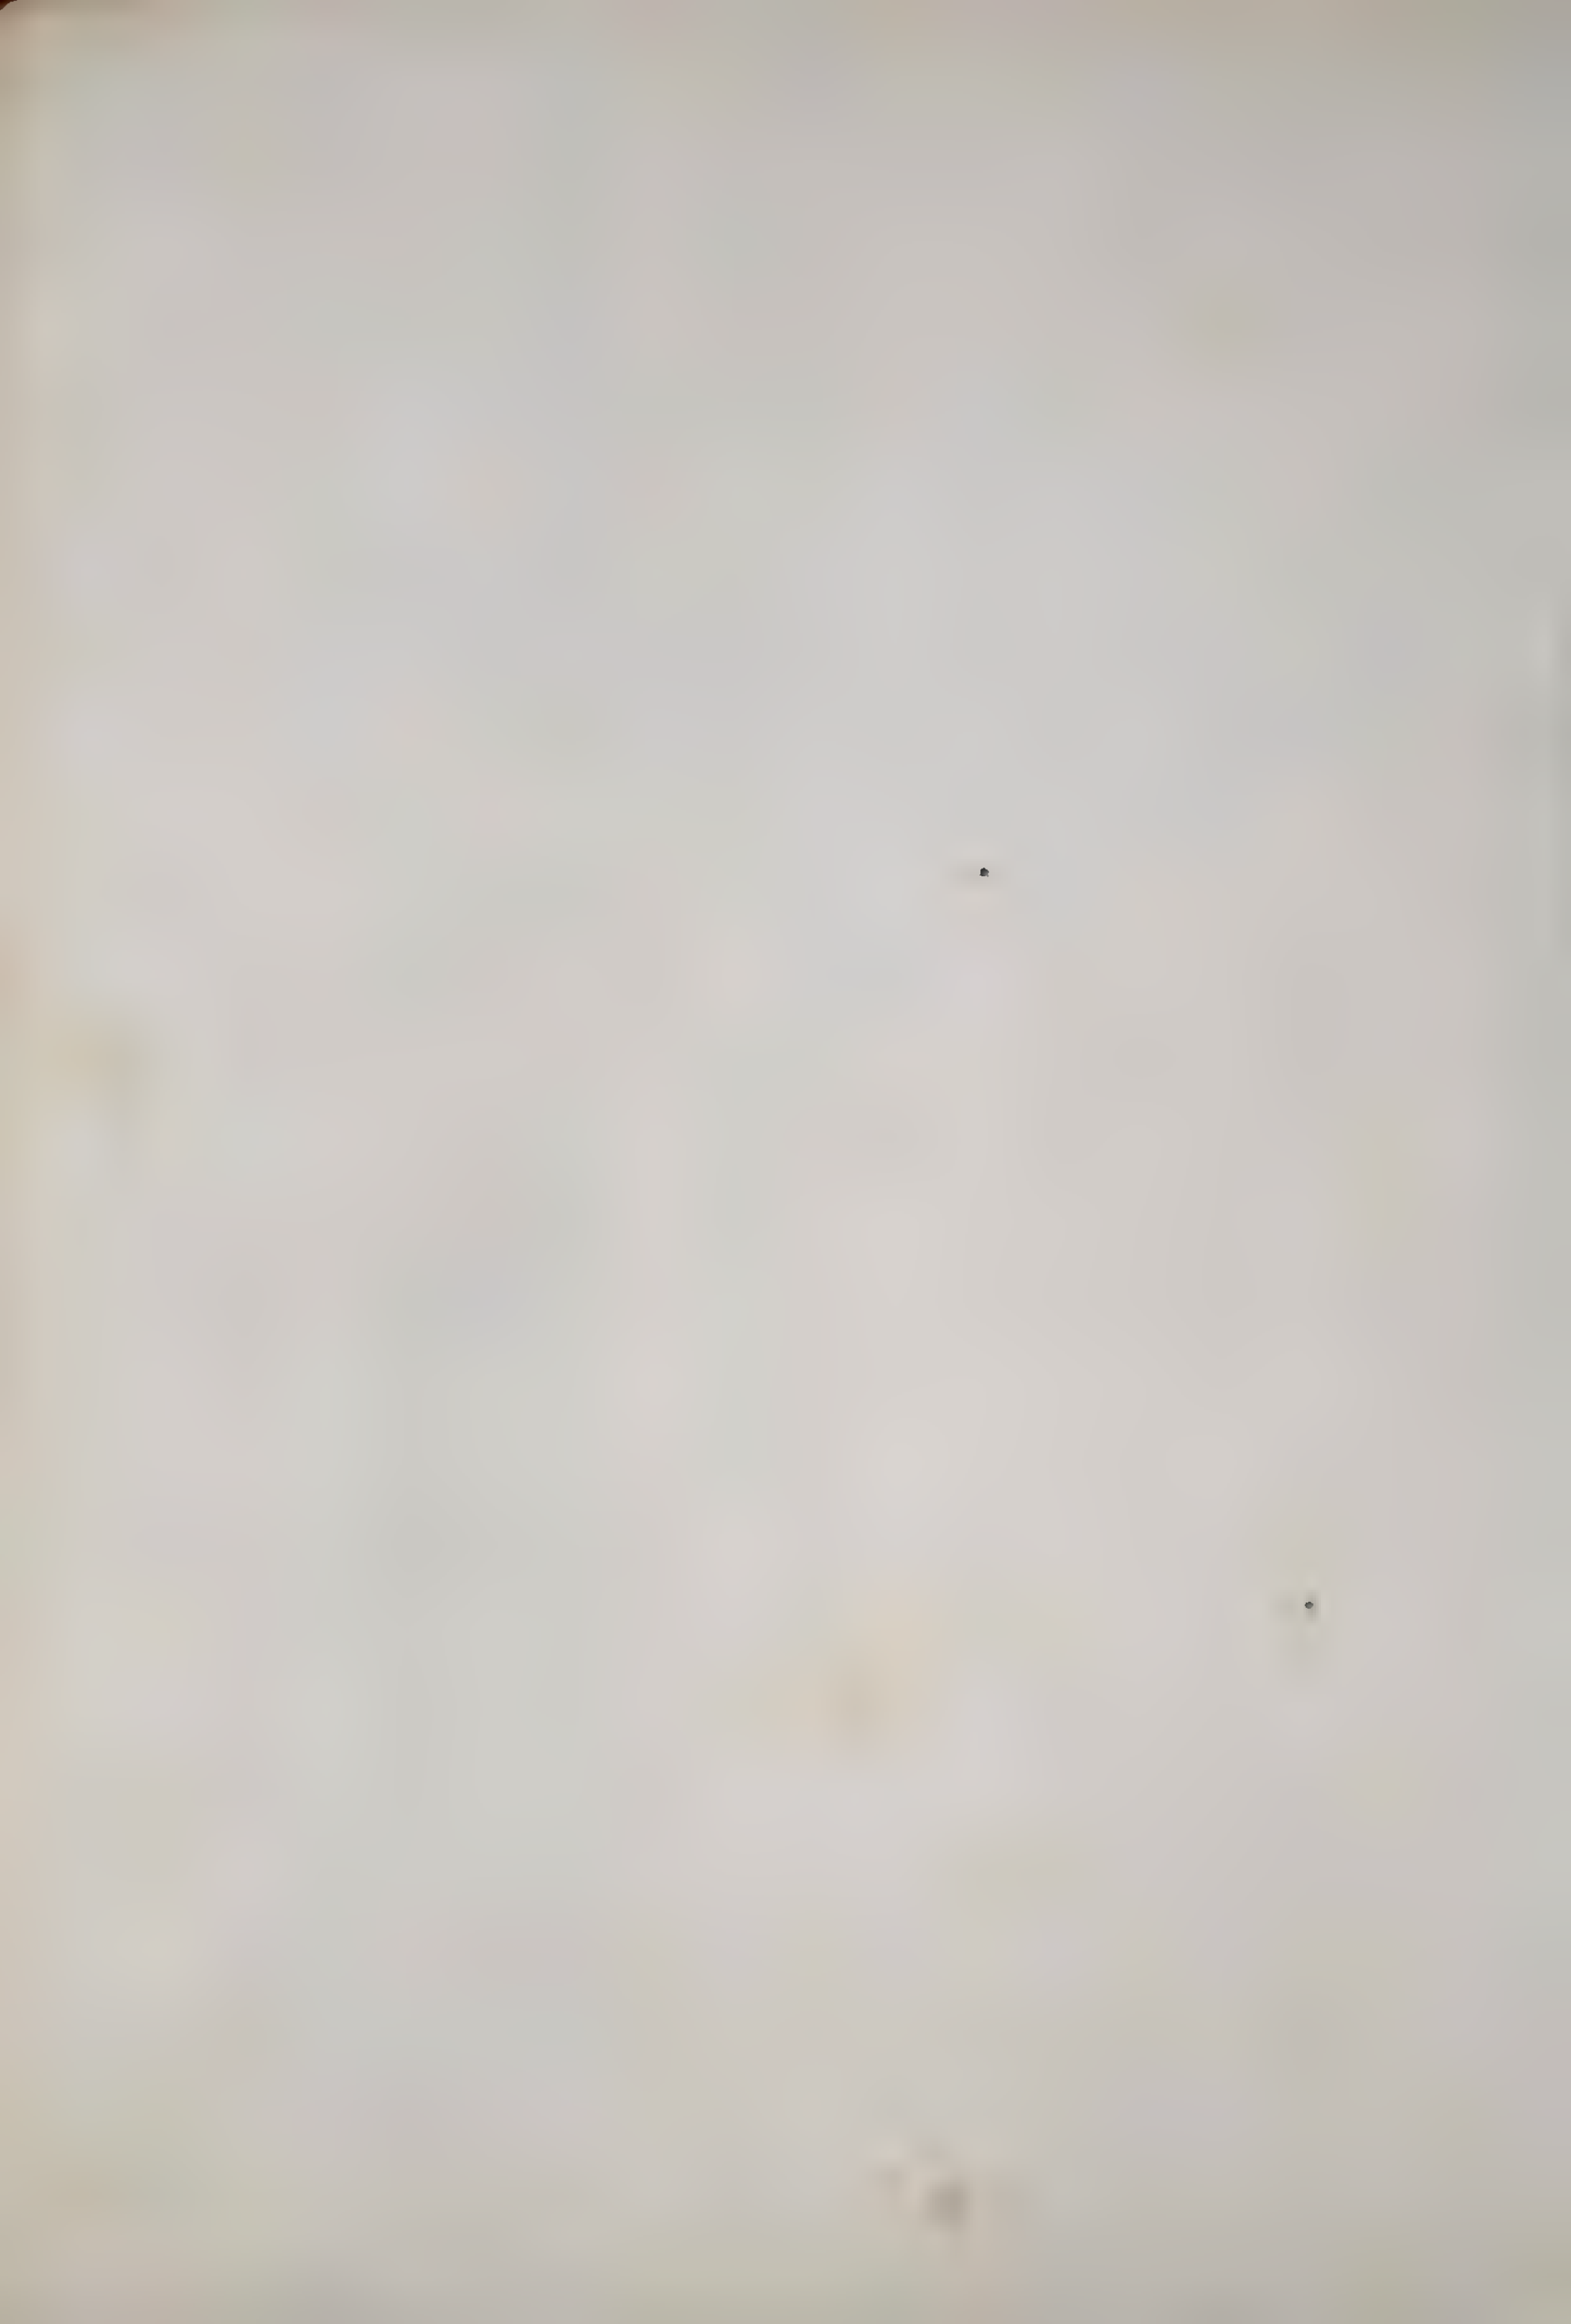

Freshmen - We assumed our duties and focused our aims on greater achievements. A few deviated, but the remaining ones determined that, "Together we stand, divided we fall".

Sophomores - With wider experiences and greater determinations we were able to go forward. To cultivate our dramatic abilities, we came before the public as often as possible, presenting plays and working in other class activities.

Juniors - With steady ascension we are realizing what is at the top. The enthusiasm and perseverance that we have had thus far cannot mean that graduation from Tyrrell County Training School is our goal, but far beyond.

— Roscoe Selby, Class '50

SOPHOMORE

Class History

A group of thirty seven walked out of the student body meeting in September, 1946. With James E. Hill as our president, and Mrs. H. S. Rowsom as our advisor, we began constructing our road to success. At the end of the first semester, we were well on our way.

As freshmen, a group of twenty eight, and with a newly elected president, Martha Hill, under the supervision of Mrs. J. F. Owens we sought higher levels of accomplishments. We at once succeeded in filling the positions opened to us. We became dominant forces in organizations as the New Farmers of America, New Homemakers of America, Dramatic, Science and Varsity Clubs.

A group of eighteen began our second year as wise and competent sophomores, under the leadership of Mrs. Owens. With our new President, Elizabeth Hill, we continued to excel in dramatics, basketball and other activities. We held the following official positions: Martha Hill, Vice President of the New Homemakers of America, Elizabeth Hill, President of the Dramatic Club. The semester is nearing the end, and as we look into the future - we see ourselves as progressive Juniors.

SUNSHINE

Dip your pen in sunshine,
Black clouds will roll away.
Live well in the present;
Gone is yesterday.
Dip your pen in sunshine,
Bid disappointments go.
With gratitude and kindness,
Let your good words flow.
— by Rhemus Holmes

WIND

Blow wind of God and set us free
From hate and want of charity.
Remove the imprudence of our pride,
And drive us to our brother's side.

I see a step before me, as I tread on another year,
But the past is still in God's keeping;
And the future His mercy shall clear.
The things that look dark at a distance,
May brighten as you draw near.

Elementary Activity

SIXTH AND SEVENTH GRADES

With vacation days gone, paper, pencils and books brought to light, a group of gallant, robust, and jovial children greeted the classroom of the 6th and 7th grades.

After adjustment was made, there was no better way to stimulate interest in our class, than through the organization of a club.

The club was organized in October of 1948 with thirty two (32) members of both the 6th and 7th grades. Later in the month sixteen (16) new students came in our class. They were recognized and accepted by the club members.

The name of our club is the I. G. M. Club, meaning Improving Good Manners. The following officers were elected, President, Russel Bryant, Vice President, Tredwell Jackson, Secretary, Violet Alexander, Assistant Secretary, Mary Alice Mclees and Advisor Mrs. B. E. Winslow.

Club objectives are:

1. To practice self control at all times.
2. To accept graciously criticisms, disappointments, and even defeat.
3. To learn rules of etiquette and put them into practice.
4. To learn and use parliamentary rules.

OUR MOTTO

"Do what you can with what you have."

RIGHT WINGERS

YOU Wrote IT!!

School Time

Mr. Keiser and teachers, too,
I am very fond of you.
You do every thing fine,
And never waste a lot of time.

You make the school and play the part,
You give the students courage to start,
And if we do what you say, and do it well
No matter where we go success will dwell.

I am going to school and I have made a start.
I will obey the laws and play the part;
I am trying to make haste and finish school,
And help others to learn the rules.

-by Willie L. Basnight

In Columbia

The people of Columbia are very sweet and clean;
Not even with a microscope can any dirt be seen.
The kitchens of the houses are very neat and bright;
With pots and pans polished, and plates of blue and white.
The housewives get up early and sometimes sit up late;
And spot everything, for dirt is what they hate.

-by Rosie Mann

Cooperation

Friends and schoolmates, too
I am giving this advice to all of you,
In order to keep our school going straight;
Everybody must cooperate.

It is not our clothes by which we rate,
It's just those who cooperate.
So let us take these things in,
And solve our problems, and try to win.

- by Mint Basnight

The Master Mind

You've pondered the speeches of great men,
Their secrets you sought to find;
But when you came to realize,
It was the power of their master mind.

You may desire to become a psychiatrist,
Or a man like Einstien;
To acquire the skill in any field,
You must have a master mind.

George Washington Carver was a scientist
Surpassed by none of his kind:
He made the things we commonly use,
With the skill of his master mind.

Just read the story of Helen Keller,
The girl deaf, dumb and blind:
She overcame her handicaps,
But it was due to her master mind.

You can be just what you desire to be,
Provided death doesn't bind.
Just nourish faith, confirm your hope,
And become a master mind.

—Roscoe Selby '50

Our Cow

We have a big red cow,
Her name is Butter Ball.
She gives us milk and cream,
A plenty for us all.

I like the cream she gives,
Because it helps me grow.
Every time I drink a glass,
I always ask for more.

The milk she gives is very good,
It's as sweet as it can be.
I am glad that we have Butter Ball,
To give good milk for me.

—Arden McKeathen
5th Grade

Home Economics

Home Economics is the most wonderful course
That ever could be had.
But when it comes to sewing,
Sometimes I get so mad.

I like very much to make a dress,
Until I get down to the sleeve;
When it comes to putting it in,
Boy, do I really get peeved.

I guess I shouldn't get impatient,
Knowing the help that it brings.
Life is more inexpensive,
When you have learned to make your own things.

—Vera Griswell '49

THE DANGER OF A COLD

A cold is caused by germs unknown, but a strong healthy body can fight it better than a weak one.

The worst thing about a cold is, it may so weaken the body that it cannot fight the germs of other diseases which are more serious than a cold. A cold that lingers a long time may be followed by pneumonia, tuberculosis, or some other serious illness.

To take care of a cold, one should drink plenty of milk, water, and fruit juices. Resting in bed, and drinking liquids are the two best remedies for a cold.

— Kay F. Hardy, 5th Grade

HOW TO HAVE A STRONG BODY

How may we have the kind of body that is able to overcome germs? First, we must eat the right kinds of food every day.

We have learned that milk, vegetables, fruits, eggs, and cod liver oil are called protective foods. They were given this name because they help protect the body against certain illnesses. People who eat these foods every day are less likely to catch colds than those who do not.

To have a strong body, we should get plenty of rest. Sleep at least ten hours every night, with a window opened top and bottom. A window opened in this way keeps the air of the room always in motion.

— Inez Holloway, 5th Grade

HOW TO TAKE CARE OF YOUR TEETH

Always brush your teeth in the way they grow, downward from the gums on the upper jaw, and upward from the gums on the lower jaw. This helps to keep your teeth safe from decay. You should brush your teeth at least twice a day, in the morning and before going to bed at night.

Sometimes a hard black or green material forms on the teeth. This material is called tartar, and it cannot be brushed off easily. This is a good reason why it is important to visit your dentist, at least, twice a year.

— Nettie Hill, 4th Grade

WHAT A GOOD CITIZEN WILL DO

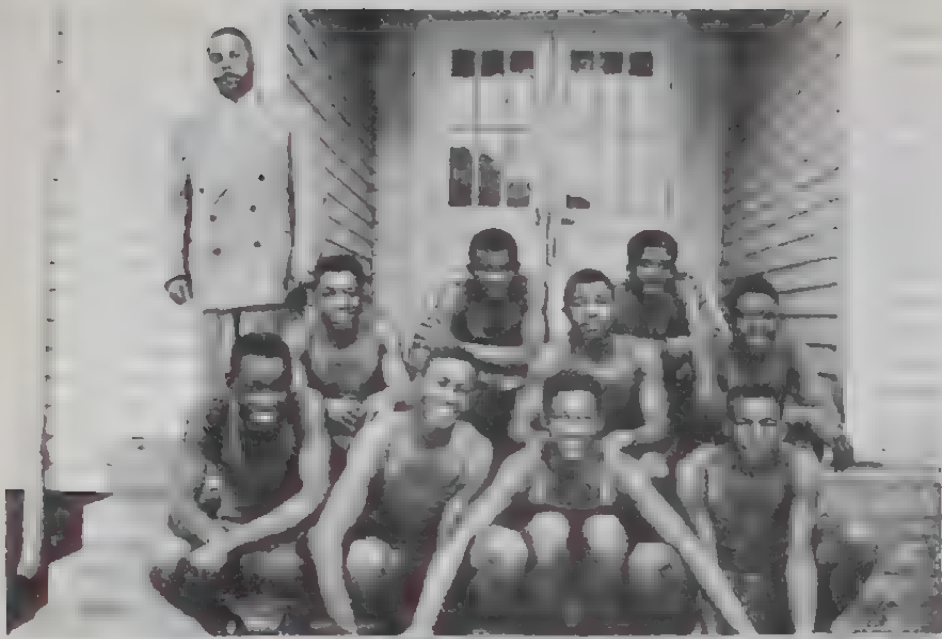

A good citizen helps to make his town a pleasant place in which to live. He does not want people to put trash in the street, nor do anything that would make it look untidy. He improves his own surroundings and expects the same of other citizens.

A good citizen does his best to make his town safe. He does not drop on the sidewalks fruit skins, or leave other things to cause injuries to fellow citizens.

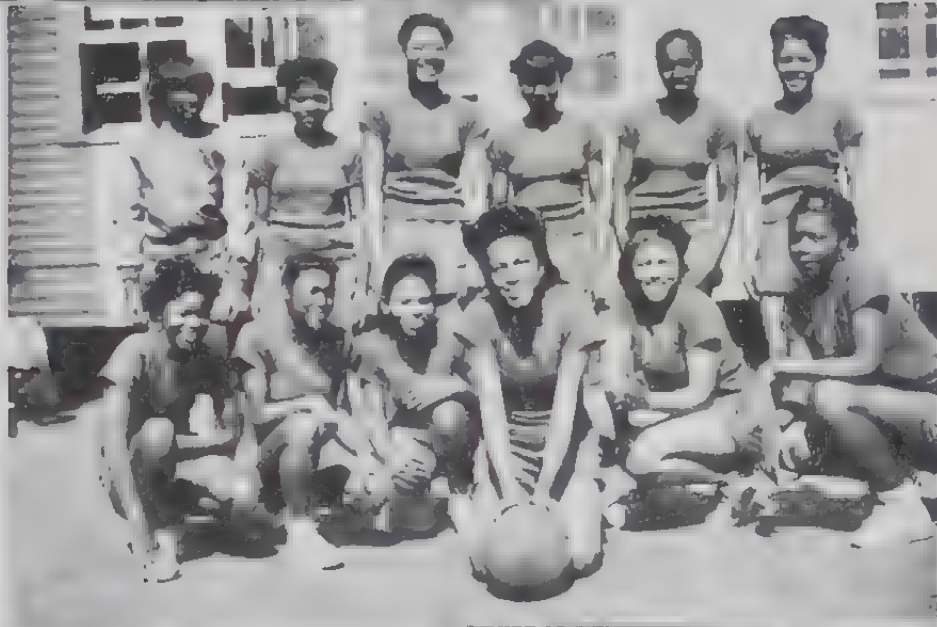

A good citizen shows interest in his school by safeguarding it for the general welfare of the children. He wants the school to be beautiful and helps to make it so.

— Ethel A. Clegg, 4th Grade

STUDENT COUNCIL

DRAMATIC CLUB

New Farmers of America

The New Farmers of America is a national organization of Negro farm boys studying vocational agriculture in the public schools throughout the United States. It was organized in Virginia, in May, 1927, with a few chapters and members. Since that time it has grown so that now it numbers some 950 chapters and 20,000 active members. The New Farmers of America is a non-profit corporation, which has as its purpose the development of its members in their vocational, social and recreational life through established local chapters where vocational agriculture is taught.

This organization affords its members an excellent opportunity to develop a type of leadership which is very essential for the modern successful farmer. This leadership ability is developed through judging, public speaking, chapter contests and from the training received through the work of chapter committees under the supervision of the local advisor. These activities develop boys into capable rural leaders and are designed to supplement training opportunities for boys who are progressing toward the goal of establishing a farming business.

The New Farmers of America was established at Tyrrell County Training School in 1933, under the supervision of Mr. T. H. Holland who now has his Ph.D. degree from the University of Minnesota. He was followed by Mr. O. E. Evans, now County Agent of Craven County. Next on the scene was Mr. G. K. McKeathen who has been teaching here continuously since that time.

Under Mr. McKeathen's administration two boys have completed courses in vocational agriculture and are now teaching in various sections of the state. They are Hilbert Sessoms and Albert Spruill. Victor Ray Owens is now a student at A. and T. College, Greensboro, North Carolina. Ten former N. F. A. members are now prominent farmers in Tyrrell County. They are: Alaric Hill, Jr., Thomas F. Griswell, Roscoe Liverman, Wade Bryant, Ersel Rowsom, Leonard Mizell, Wilbert Fenner, Calvin Melton, Cassale Horton and Clinton Spencer.
